Course Overview

This course will take approximately 2 hours to complete in full. You will need headphones or speakers to hear the course narration.

The course consists of two informational modules and four interactive case scenarios, which you may choose to complete over multiple visits. Use the navigation menu to find the module where you left off.

Use the **Next** and **Prev** buttons located on the bottom of the screen to navigate from slide to slide.

Throughout the course, this icon will be used to indicate interactive content. Follow the instructions before proceeding to the next slide.

[Introduction](#)[Module 1: Recognizing Stigma](#)[Module 2: Introduction to Stigma Reduction](#)[Module 3: Putting it into Practice](#)[Wrap Up](#)

Resources

AT THE END OF THIS COURSE, **LEARNERS WILL BE ABLE TO:**

1. Name five different forms of stigma
2. Explain how the different forms of stigma can impact the health and well-being of people accessing services
3. Describe approaches to reduce stigma in the clinical service setting
4. Employ strategies to comfortably and respectfully discuss sexuality, substance use, and sexually transmitted and blood borne infection (STBBIs) with the diversity of people that may access services

Q4. How would you rate the overall care you received from your provider?

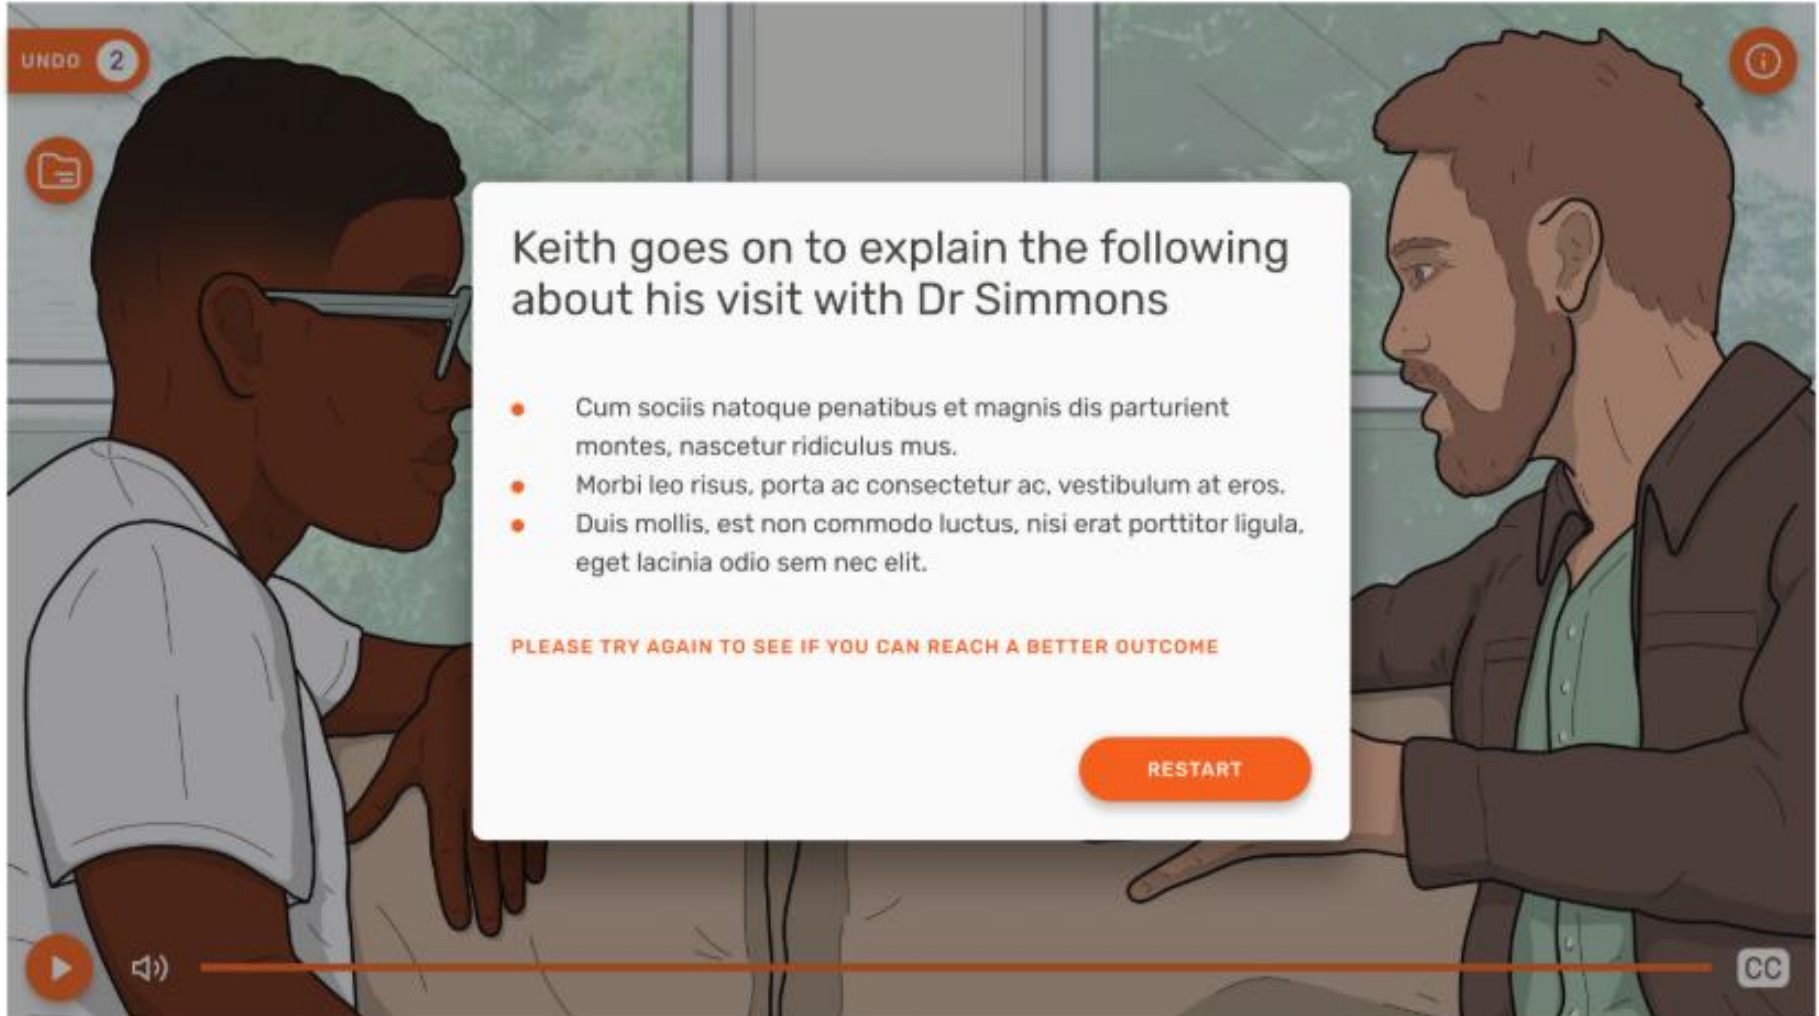

Very dissatisfied Dissatisfied Neutral Satisfied Very satisfied

OVERALL CARE

Overall, the care provided was excellent. I want to single out Dr. Kline here specifically. When we first met she introduced herself with her pronouns (she/her) and while it might seem unremarkable, it was easier for me to say, Hi, Dr. Kline, I'm H and my pronouns are they/them. It just normalizes it, you know? I'd love to see more of this across the healthcare sector.
